

Desert Perinatal Associates – Las Vegas, Nevada

We are a group of 5 MFM specialists who are looking for at least 2 more physicians. We have a different philosophy than many other groups. We believe that family and free time are as important as your job. Therefore, we offer a chance to work part time or full time and even commute to our practice for 2-4 days/week and then go home. We enjoy each other's company immensely and have fun at work while taking care of patients. We don't believe in a "non-compete" clause in your job with us. You should be happy and if you're not, then feel free to leave at anytime. We have three beautiful offices however, you typically would spend most of your time in one office. Also, we will give you a computer so you can do your work from home, if you wish.

We believe in paying very well. We also don't believe in basing your salary on a "bonus" structure. Why? Well, we don't want you to worry about what your bringing in, which insurance your patient has, who is doing your billing, etc. We know all of our doctors work hard and shouldn't have to worry about what they are billing/collecting.

Typically, for each day per week that you work, you will receive \$100,000/year. For example, if you want to work 5 days/week, you would START at \$500,000/year. This would increase each year that you are with us. Also, we would give you a signing bonus of \$50,000.

Other benefits include, but are not limited to:

- Interview and moving expense reimbursement
- Health and dental coverage for you and your family
- Malpractice insurance coverage
- 401(k) with company match up to 4% of your pre-tax salary contributions
- One paid CME course per year and paid travel expenses, if you present a poster/oral presentation
- Paid vacation (varies with number of days worked per week)
- Your own office at one of our three locations
- Computer for home with remote access to work on reports
- Academic appointment at the University of Nevada School of Medicine
- 1:6 Call Schedule (varies with number of physicians)
- Flexible schedule: Just ask us.

Come visit us. We think that you will find Las Vegas a fantastic place to live, work and raise children. There is far more to our city than the Strip and gambling. With 320 days of sunshine, average temperatures of 80 degrees and a short drive, you can enjoy boating, water sports, golfing, rock climbing, hiking and biking nearly all year round at Mt. Charleston, Red Rock Canyon, Valley of Fire, and Lake Mead. Skiing, snowboarding and snowmobiling are spectacular at Mt. Charleston or just a few hours north to Brian Head, Utah. With the number of parks, museums, entertainment, cultural arts, shopping and world class dinning options, you will be proud to call Las Vegas "home".
