City, ST ZIP Code

Operative gynecologic laparoscopy has become the accepted modality for treatment of various abdominal and pelvic pathologies. We are pleased to provide you with training on the latest trends in endoscopic and hysteroscopic surgery, while maintaining the highest quality instruction in basic principles and techniques.

Participants will be exposed to one or more of the following:

- Clinical and video overview of Robotic Surgery
- Live Robotic Surgery (based on availability)
- Hands-on Robotic Session (based on availability)

The team of instructors is composed of surgeons whose experience and research have helped establish and expand the field of operative laparoscopy. Accomplished practitioners, the surgeons have successfully conducted workshops for over twenty years in the United States and abroad.

Course Overview

The directors of this educational activity are committed to preserving the wisdom of those before them as they seek state of the art technology. Since 1982, they have gained extensive experience sharing their knowledge with colleagues from the United States and abroad.

Lectures will focus on the fundamentals of laparoscopic and hysteroscopic surgery, including anatomy, instrumentation, room set-up, energy sources, suturing, and techniques of reconstruction. Complications will also be covered, including prevention, recognition, and management. Participants will observe live surgery with interactive discussion, as well as participate in various hands-on laboratory sessions utilizing both animate and inanimate models.

Topics Include:
Office and Operative Hysteroscopy, Anatomy, Safe Abdominal Entry, Laparoscopic and Hysteroscopic Myomectomy, Hysterectomy, Treatment of Endometriosis and Ovarian Cysts, Pelvic Floor Repair, Suturing, Stapling, New Instrumentation, CO₂ Laser, Electro and Ultrasonic Energy, Complications, and Robotics (when available).

Course Schedule

Thursday, Day 1 – Hysteroscopy

Live Surgery Observation
Myoma, Septum, Ablation, Adhesions, Complications
Hands-on Inanimate Lab
Resectoscopes, Hysteroscopes
Lecture & Video Presentation

Friday, Day 2 – Laparoscopy

Live Surgery Observation
Abdominal entry, Myoma, Hysterectomy, Endometriosis, Pelvic Floor Repair, Ovarian Cysts, Presacral Neurectomy, Ectopic Pregnancy

Hands-on Inanimate Lab - Pelvic Trainer
Laparoscopic suturing and stapling, Ultrasonic energy, CO₂ Lasers and electro-surgery, New and additional instrumentation
Lecture & Video Presentation

Saturday, Day 3 – Laparoscopy

Hands-on Animate Lab
Video Presentation
Lecture and Q&A

Course Faculty

Camran Nezhat, MD, Cean Nezhat, MD, Farr Nezhat, MD
Invited select faculty will vary from course to course.

The Stanford University School of Medicine designates this educational activity for a maximum of 23 credits towards the AMA Physician's Recognition Award.

Registration

Please complete and return with payment to:
Endoscopy Laser Institute
5555 Peachtree Dunwoody Rd.,
Suite 276
Atlanta, GA 30342
If paying by credit card you may fax this form to:
(404) 255-5627

I am registering for the:
 Full course - \$1250.00
 Day 1 only - \$750.00
 Days 2 and 3 only - \$1000.00

Please write in your selected course dates
